

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

June 1 through 15, 2002

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **June 1 through 15, 2002.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Gregoria Garcia (for projects in Northern California)
Becky Frank (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of June 1 -15, 2002.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

Federal Notices

Intergovernmental Review Notices (June 1st – 15th, 2002)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

No Federal Grants have been received during the period of June 1 - 15, 2002.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, June 03, 2002</u>			
2002061011	Rezoning Application No. R-02-20 Fresno, City of Fresno--Fresno Rezoning Application No. R-02-20 pertaining to 233 acres of property generally bound by East Kings Canyon Road (South), the Tulare Avenue Alignment (North), the Burgan Avenue Alignment (East) and the Sunnyside Avenue alignment (West) from AE-5/UGM to R-1/UGM. The applicant, Fancher Creek Properties, is requesting a rezoning to R-1 which is consistent with the underlying plan designation of medium density residential as established by the Roosevelt Community Plan. The medium density residential land use designation allows development to a density of 10.37 units per acre.	CON	06/15/2002
2002062004	Proposed Gaming Facility Construction, Hopland Indian Reservation, Mendocino County, CA Hopland Band of Pomo Indians --Mendocino Proposed is the construction of a new Sho-Ka-Wa Casino, adjacent to the existing casino owned by the Hopland Band of Pomo Indians. The new facility is a two story structure with a total of approximately 97,722 square feet. The parking area includes spaces for 966 vehicles, 20 Handicapped spaces, 12 RV spaces, and 3 bus spaces. Approximately 16 acres of overall development. In addition, a commercial waste water disposal system with a pretreatment gallery, water system development and associated circulation and parking proposed. The proposed casino will operate 24 hours a day, 7 days a week.	EA	06/28/2002
2001092065	Tokay High School Football Field Lighting System Lodi Unified School District Lodi--San Joaquin Installation and use of a lighting system for the existing football field at Tokay High School in Lodi. The lighting system would consist of four sets of ten fixtures mounted on wooden poles approximately 80 feet in height.	EIR	07/17/2002
2000072091	426 Alice Street Project Oakland, City of Oakland--Alameda 94 Residential units and 9,800 square feet of office space in an 8-story building.	FIN	
2001032093	200-228 Broadway Mixed Use Project Oakland, City of Oakland--Alameda The proposed project consists of approximately 245,000 total sf of new development that includes 109 market-rate for-sale housing units, ground-floor retail, and four levels of office space. A parking structure containing 290 parking spaces is also proposed as part of the proposed project, within the new building, for a total of 355,000 sf of new development on the project site.	FIN	
1997101065	Supplemental EIR-Effluent Pump Station Annex and Collection System Odor and Corrosion Control Program Orange County Sanitation District Fountain Valley, Huntington Beach--Orange To supplement the 1999 Strategic Plan Program Environmental Impact Report (SEIR), the Orange County Sanitation District (OCSD) will construct the Effluent	NOP	07/02/2002

	Pump Station Annex (EPSA) at its Treatment Plant No. 2 facility, located within the City of Huntington Beach, Ca. The EPSA will serve as a back-up pump station for discharging treated wastewater to OCSD's ocean outfalls to the Pacific Ocean. Additionally, a new collection system Odor and Corrosion Control Program (OCP) will apply odor-reducing chemicals intermittently in the upper reaches of OCSD's trunk sewer system as wastewater is conveyed from northern and central Orange County to the District treatment facilities.		
2002061001	S2001-03, Sierra Meadows Estates Subdivision Madera County Planning Department --Madera The project consists of a proposed 304 lot subdivision of 442 acres. A general plan amendment for the project site has also been proposed by the applicant. Lots will vary in size from approximately 7,000 s.f. to more than 6 gross acres.	NOP	07/02/2002
2002061002	4H Platform Shell Mounds Disposition California State Lands Commission --Santa Barbara The project is a study to determine the environmentally preferred way to deal with shell mounds that remain at the sites of the Chevron oil platforms Hope, Heidi, Hilda and Hazel, all removed in 1996. The EIR/EA will assess the physical and chemical make-up of the mounds, different methods of removal, different disposal options and mitigation measures to be imposed if the mounds are left in place.	NOP	07/02/2002
2002061004	Specific Plan No. 329 (Creekside Specific Plan) Riverside County Planning Department Perris--Riverside The proposed project is to develop a total of 329.6 acres with a variety of uses, including: 1,312 residential dwelling units (du) on 232.3 total acres (comprised of 67.5 acres of medium high density (5,000 square foot minimum lots totaling 357 du; 96.8 acres of medium density (6,000 square foot minimum) lots totaling 435 du; 46.4 acres of medium density (7,200 square foot minimum) lots totaling 175 du; 21.6 acres of high density (multi family townhomes) totaling 345 du. In addition, the specific plan includes the following designations/uses: 12.5 acres of parks; 55.5 acres of designated open space/conservation and 29.5 acres of major roads.	NOP	07/02/2002
2002061009	El Pomar-Estrella Area Plan Update; ED97-644,G870012X San Luis Obispo County Paso Robles, Atascadero--San Luis Obispo A request to update the El Pomar-Estrella Area Plan.	NOP	07/02/2002
2002061015	Stonecreek Area Plan Los Banos, City of Los Banos--Merced Stonecreek at Los Banos (hereinafter "proposed project") is an Area Plan for a 489.3-acre master planned community located immediately south of Pacheco Boulevard (Highway 152) and immediately east of Los Banos Creek in and adjacent to the City of Los Banos. Pioneer Road forms the southern site boundary and Ortigalita Road and the existing Wal Mart shopping center generally from the eastern boundary. The project site is within the City's urban limit line and sphere of influence. Approximately 48.9 acres are currently within the City's redevelopment boundary and city limits. The portion of the project site that is not within the City limits would be annexed to the City. Proposed land uses include: office campus, mixed use (including first floor retail with a mix of second floor	NOP	07/02/2002

	office and second floor residential), commercial, public parks and trails, a community center, a fire station site, an elementary school site, a church site, a child day care site, and several forms of residential housing including multi-family, cluster single family, senior residential and a range of single family detached lot sizes ranging from 4,500 square feet to 10,000 square feet. The proposed project would be developed in six phases.		
2002062002	University Park Stockton, City of Stockton--San Joaquin Create a mixed-use development through reutilization of a currently developed site. Proposed used to include retail/commercial, office, educational, and community center. CSU-Stanislaus to continue using the site.	NOP	07/02/2002
2002061003	Wineman Road Culvert Repair Project San Luis Obispo County Nipomo--San Luis Obispo The project will require removal of debris from the stream channel, removing and replacing two existing culverts with two 48-inch by 40-foot culverts, replacing lost rock slope protection (RSP) to stabilize the embankment, and repair of the road. The repairs will require the replacement of approximately 50 cubic yards of RSP along the embankment and approximately 125 cubic yards of imported borrow material to restore the embankment. No trees will need to be trimmed or removed. The area of impact will total approximately 500 square feet. Repair activities will impact areas below ordinary high water.	Neg	07/02/2002
2002061005	Yucaipa Valley Water District Wells #55 and #56 and the R-12.1 Reservoir Complex Yucaipa Valley Water District Yucaipa--San Bernardino Yucaipa Valley Water District (YVWD) is proposing to operate existing domestic water Well #55, construct and operate domestic water Well #56, and construct and operate two water storage reservoirs. The purpose of the project is to provide an adequate water supply to customers within the YVWD service area.	Neg	07/02/2002
2002061006	Yucaipa Valley Water District South Street Sewerline Relocation Project Yucaipa Valley Water District Yucaipa--San Bernardino Relocation of an existing sewerline located on the south side of the Chicken Springs channel immediately easterly of Sixth Street in the City of Yucaipa. The sewerline is being relocated to provide a connection with a new sewerline being constructed by a residential development on the north side of Chicken Springs channel. The existing section of sewerline being relocated will be abandoned.	Neg	07/02/2002
2002061007	Conditional Use Permit and Zone Change No. 02-086 Los Angeles County Department of Regional Planning San Gabriel--Los Angeles An application for a Conditional Use Permit to authorize construction, operation and maintenance of a three-story, 53-unit affordable senior apartment building. The project also requires a Zone Change from A-1 to R-3. Thirty-four (34) parking spaces are required and 40 will be provided. The site was previously approved for two different projects: (1) A 4-story, 61-unit senior citizens housing under CUP 93-207; (2) a 3-story, 53-unit residential care facility for the elderly in 1999 under CUP 98-114. The site currently has a vacant single family residence.	Neg	07/02/2002

2002061008	Ashton Ranch Estates Tract Map TM 29628 Riverside, Planning Department, City of Riverside--Riverside The applicant proposes to subdivide approximately 72 vacant acres into 35 residential lots. A number of variances related to density, lot design and grading will be required. Minor extensions of infrastructure will be required to serve the proposed lots. This map is generally consistent with the City's General Plan and Zoning Code and Grading Ordinance requirements.	Neg	07/02/2002
2002061010	Summit Avenue Improvement Project Fontana, City of Fontana--San Bernardino The proposed roadway widening would improve an approximately 2.4-mile segment of Summit Avenue, from Mango Avenue to Beech Avenue, and Frontage Road from Beech Avenue to San Sevaine Road. The proposed storm drain box culvert along Summit Avenue and Frontage Road would provide storm drainage to the northern section of the City.	Neg	07/02/2002
2002061012	Permanent GAC Contractor Installation at the Silverwood Lake Water Treatment Plant Crestline-Lake Arrowhead Water Agency --San Bernardino At the Silverwood Lake WTP site, the proposed project will include the installation of six pairs of 10 foot by 18 foot tall Granular Activated Carbon (GAC) Contractors on approximately 4,125 square feet of graded land immediately east of Backwash Holding Tank #2 within the WTP boundary. When in operation, the GAC Contractors will be serviced by one semi-truck on a monthly basis to change the internal carbon media. An additional approximately 2,500 square feet of previously graded pad area will be used as a service truck turnaround area. Additional structures to be constructed include the installation of one 50 hp and one 100 hp booster pumps and minimal lengths of pipe to connect the GAC Contractors to existing pipelines. A proposed 30 foot by 15 foot building will be constructed adjacent to the north end of the existing filter building located at the northern edge of the WTP site to house boosters and dechlorination equipment. As a part of this project, a 15 foot by 30 foot building will be added to the east side of the existing control building located west of the proposed GAC units. An existing emergency wastewater basin will be converted into a percolation bed to process additional clarifier sludge resulting from the proposed project. The bottom of the existing 0.2 acre basin will be scarified, perforated pipes will be installed, and then covered with sand and gravel to complete the conversion. The proposed project will remove precursors to Trihelomethanes (THMs) and (THMs) themselves from water within the CLAWA water delivery system. The project is proposed in response to existing Department of Health regulations involving water quality. The proposed project will improve water quality leading to compliance with water quality standards.	Neg	07/03/2002
2002061013	06-KIN-198 KP 34.6/45.5 (PM 21.5/28.3) 06-TUL-198 KP 0.0/5.3 (PM 0.0/3.3) Hanford Expressway Caltrans --Kings, Tulare The California Department of Transportation proposes to improve State Route (SR) 198 by converting the existing two-lane conventional highway to a four-lane divided expressway for 16.2 kilometers (10.1 miles) from 0.8 kilometers (0.5 miles) east of SR 43 near Hanford to 0.6 kilometers (0.37 miles) west of SR 99 near	Neg	07/02/2002

	Visalia. The intersection of Road 68 and Route 198 in Tulare County would be separated with an overcrossing without ramps because the SR 198/SR 99 interchange is less than a half mile away.		
2002061014	Creekside Villas Multi-Family Residential Development Buellton, City of Buellton--Santa Barbara The current project includes a General Plan Amendment, Zoning Ordinance Amendment, Final Development Plan and Variance for the development of 76 affordable multi-family residential units on the 4.4-acre subject site (refer to Figure 2). The density of the site would be approximately 17.3 units per acre. The project site is designated for General Commercial (GC) development and zoned for Retail Commercial (CR) development. The proposed General Plan Amendment (GPA) would alter the land use designation of the site to "Multi-Family Residential (MFR)." The MFR designation allows development at a density of 9-16 units per acre. As the project would involve the development of entirely low income housing the project is eligible for a density bonus pursuant to the City Zoning Ordinance to 11-20 units per acre. The proposed zoning ordinance amendment would alter the zoning designation to "Planned Residential Development (PRD)." The PRD zoning would allow for clustered development while maintaining a large amount of open space along Zaca Creek and the adjacent buffer area.	Neg	06/24/2002
2002061016	Surface Mining Permit No. 204/ Environmental Assessment No. 38387 (Vista Mine) Riverside County Planning Department --Riverside Application to permit surface mining of fill material, sand and gravel for redi-mix concrete, asphaltic concrete, and other construction end-uses. No processing of materials will be performed on-site. Mining will take place over a period of 10 to 20 years. This plan proposes a total mining life of 20 years or upon mining 2,755,500 tons of material, whichever comes first. Annual mining tonnages shall not exceed 675,000 tons. The mine will cover approximately 38.30 acres of privately-owned land.	Neg	07/02/2002
2002061024	Miles Avenue Park Expansion Project Indio, City of Indio--Riverside Acquisition of approximately 9 acres of land for the purpose of expanding a City Park. The project entails vacation of public street (Arabia Street portion) and removal of three buildings, construction of new baseball diamonds, new stage and plaza area, new 3600 square feet restroom/concession building, skate park, park furniture and amenities.	Neg	07/02/2002

1998122044	<p>Addition to the Auxiliary Lanes on Route 101 in San Mateo County Caltrans, Planning Sacramento--</p> <p>The proposed project is located in Belmont Creek along Highway 101 at KP 16.2 in the County of San Mateo. Belmont Creek is tidally influenced in this reach and could support adult steelhead living in a marine environment. The work will consist of extending the existing double box culvert by 25 feet on the upstream (west) side. Culvert wing walls will be constructed perpendicular to Belmont Creek on each side of the extension and will be approximately 13 feet long. Construction will require dewatering the construction area with the placement of coffer dams above and below the work area. The sediment in the construction area will be removed, piles driven for the culvert extension, placement of a concrete seal, construction of the extension and wing walls, and removal of the coffer dams and restoration of the site. CDFG is executing a Lake and Streambed Alteration Agreement Number R3-2002-0309 pursuant to Section 1601 of the Fish and Game Code to the project operator, Mr. Abolfazi Emadzadeh.</p>	NOD

	The Larkfield District is classified as a community water system and provides drinking water for residential and some commercial developments. The project will consist of test hole drilling and construction of a new production water supply well, extending the raw water line located in the Old Redwood Highway roadway alignment in order to connect the well to the existing treatment plant, and making well site improvements. The residents of the Larkfield District will be the beneficiaries of the projects as the source capacity of the system will increase thus mitigating ongoing water reationing due to a demand which exceeds its supply.

2002058507	Alma Helitack Base Forestry and Fire Protection, Department of --Santa Clara The repair and relocation of an existing leach field at a state fire station facility. The current leach field is failing and posing a threat to public health. The new leach field will serve the current facility without any expansion in use. The proposed repairs and relocation are required to abate the public health threat.	NOE	
2002058508	King City FFS Administration Office Building Demolition Project Forestry and Fire Protection, Department of --Monterey The proposed project entails the demolition of a former administration office building located on the CDF-King City Forest Fire Station compound. The original 2457 ft., 1937 office building at this site was either replaced or substantially rebuilt in 1950. It was remodeled and enlarged again circa 1972. The building is no longer used as an office or for any other purpose and is in disrepair. In addition, the building is an attractive nuisance. Finally, the building no longer meets current Building, Fire, Earthquake Code standards along with the Americans with Disabilities Act (ADA) requirements. The San Benito-Monterey Unit proposes to demolish the building rather than seek funding for the major renovation required to make the building serviceable and avoid the liabilities of unauthorized use.	NOE	
2002058509	Fredonyer Verizon Forestry and Fire Protection, Department of --Lassen This project includes the dismantling of a temporary cell phone communications vault, tower and solar panel located adjacent to Fredonyer Peak Lookout. This will be followed by the construction of a new permanent cell phone communications vault with solar panel located 350 feet south of the original location and adjacent to an existing CDF communications vault and tower.	NOE

2000041129	Cabrillo Business Park Santa Barbara County Goleta--Santa Barbara 1. An amendment to the Goleta Community Plan (99-GP-002) to reconfigure location of the Industrial Park/Light Industrial designations on the site, without a change in the overall acreage of each district; 2. A Rezone to reconfigure locations of the MRP and M-S-GOL districts on site, without a change in the overall acreage in each category; 3. A Final Development Plan to remove two buildings, retain and remodel seven existing buildings and build eleven new structures. The proposed new buildings would total 704,600 square feet (sf) and the existing buildings retained would total 241,682 square feet, for a total of 946,282 square feet onsite. The proposed building would include research and development and self-storage uses. The new buildings to be developed include 174,600 square feet of self-storage and 530,000 square feet of research and development uses. Approximately 10,000 square feet of the research and development area would be used for onsite service related uses. Parking for 2,138 automobiles would be provided. In addition to standard landscaping amenities, the plan includes a substantial greenbelt area. Development would be phased over several years. 4. A Vesting Tentative Tract Map to split the site, currently one parcel, into 20 individual parcels.	EIR	07/19/2002

	uses east of Delmas Avenue, and up to 15,000 square feet of commercial uses west of Delmas Avenue. Building heights would range up to 218 feet (approximately 10 stories) to 268 feet (approximately 14 stories) above grade.		
2002061032	Mueller Property/Sprint PCS SD-577; ZAP 96-031W, Log No. 96-14-020A San Diego County Department of Planning and Land Use San Diego--San Diego Sprint PCS is proposing to co-locate a wireless communications facility consisting of three panel-type antennas mounted on a monopole at 45 feet. The associated electronic equipment will be located in a heavily landscaped area approximately 150 feet to the southeast of the antenna structure. The existing Verizon antennas will be re-located to the Sprint pole and be attached at 35 feet. The existing pole will be removed. Furthermore, the existing power and telephone services to the home will be moved underground and the power service pole will be removed.	Neg	07/05/2002
2002061033	Stephany Tentative Parcel Map, TPM 20625, Log No. 01-21-004 San Diego County Department of Planning and Land Use --San Diego The project proposes a minor subdivision of 24.11 gross acres into 3 residential lots ranging from 8.0 to 8.1 net acres. The subdivision is located on Oak Drive in the Community of Lake Morena/Campo within unincorporated San Diego County. The project site is composed of Disturbed Habitat, Great Basin Sage Scrub, and Southern Mixed Chaparral. There is an existing open space easement for biological resources over the southern 7.4 acres of the property.	Neg	07/05/2002
2002061034	Orange County Groundwater Storage Basin Conjunctive Use Program Orange County Water District Orange--Orange The groundwater storage program would provide for 60,000 acre feet (af) of excess Metropolitan Water District of Southern California (Metropolitan) surface water to be delivered via existing connections and stored in the in the Orange County groundwater basin when available. When called by the Metropolitan during shortages of imported water, 20,000 af per year would be extracted from the Orange County groundwater basin and decrease by an equivalent amount the demand for Metropolitan firm deliveries; thereby, making additional Metropolitan firm deliveries available to the region. This operation would continue for up to three consecutive years. The term of the program would extend through year 2030. The program includes the participation of eight OCWD District groundwater producers. When the stored water would be extracted during a drought, the eight producers would pump it out and use it in their individual systems, and thus allow for the additional Metropolitan deliveries to the region.	Neg	07/05/2002

NOD	
2002069017	Streambed Alteration Agreement R3-2002-0048/THP 1-02-014 MEN Forestry and Fire Protection, Department of --Mendocino The applicant proposes five activities (projects): Project A involves using an excavator to construct a small water channel diversion (about 4 feet deep by 16 feet long with a corresponding berm) to divert peak river flow back in to the original channel area. Project B involves installing a rocked ford at a location where a seasonal logging road crosses a Class II watercourse. Project C involves installing a rocked rolling dip where a seasonal logging road parallels a Class II watercourse. Project D & E involves installing two 10,000 gallon cement tanks at two locations. CDFG is executing a Lake and Streambed Alteration Agreement R3-2002-0048, pursuant to Section 1603 of the Fish and Game Code to the project applicant, Chris Hayter, Campbell Timberland Mangement.	NOD	
2002058568	Testing, Optimization, and Demonstration of an EPAG Microturbine Energy Commission San Diego--San Diego The purpose of this contract is to co-fund continuing development of a novel gas microturbine design that will increase electricity supply, reduce peak demand on the power grid, improve local reliability and power quality, with reduced environmental emissions. This project meets the PIER objective of improving energy cost/value of California's electricity by developing and demonstrating a significant increase in a microturbine's thermal efficiency from 24-30% to 37.5-40%. The overall technical objective is to convert the ALM's Alpha 1 into an Alpha 2 into beta units and place units in the field addressing specific technical goals. This project also meets the secondary goal of improving environmental and public health costs/risk of California's electricity by lowering emissions to less than 5 ppm NOx with acceptable CO levels, with further reduction potential.	NOE	
2002058569	A 500 kW Zero-Emission Gas-Fired Power Plant Energy Commission Antioch--Contra Costa The purpose of this contract is to demonstrate the durability and reliability of a zero-emission, gas-fired power plant using Clean Energy System's technology. CES will design and build a 500 kW generator, which will be installed to drive a stream turbine and generate electricity for two years at Mirant Delta's Contra Costa power plant in Antioch, CA. Exhaust CO2 will be recovered and sold.	NOE

2002058602	<p>Hopper Creek Pond Maintenance Fish & Game #3 Yountville--Napa</p> <p>The purpose of the project is to inhibit the growth of tules and allow the water to flow through the pond. All work will be done by hand. The tules will be removed and taken to higher ground away from the creek and pond. The only vegetation to be removed is tules. No other riparian vegetation will be trimmed or removed. The project will take place once a year for the next three years. The existing willows are currently providing shade on the pond and should eventually inhibit sunlight enough to prevent the regrowth of tules. Issuance of a Streambed Alteration Agreement Number R3-2002-0124 pursuant to Fish and Game Code Section 1603.</p>	NOE	
2002058603	<p>Fish Hatchery Creek Bridge Installation Fish & Game #3 --Marin</p> <p>Installation of a 20- foot span bridge for access to a proposed single family residence. The abutment backwalls will extend along approximately 18 feet of creek bank. The wingwalls will extend an additional seven (7) feet on each side. Temporary barriers will protect the creek from debris entering the channel. Construction will be accomplished when the creek is dry. About 800 square feet of native shrubs will be replaced by the driveway and bridge abutments. Larger willows will be re-planted; other disturbed soil will be re-vegetated with native species. Issuance of a Streambed Alteration Agreement Number R3-2002-0092 pursuant to Fish and Game Code Section 1603.</p>	NOE

2002062029	Dry Lake Clay Pit - Use Permit and Reclamation Plan Modoc County --Modoc Dry lake properties, LLC is requesting a Use Permit and approval of a Reclamation Plan for the operation of mining clay to be used for nearby projects and for internal work on the adjoining ranch property.	CON	07/09/2002
2000101071	Eagle Flower Garden Resort and Casino Temporary Casino Facility Augustine Band of Cahuilla Mission Indians Coachella--Riverside The proposed action consists of the approval of a management agreement between a private development company and the Augustine Band of the Cahuilla Mission Indians (Tribe), by the National Indian Gaming Commission (NIGC). The agreement and associated agreements would provide for the operation of a casino within a 31,200-square foot building located on an approximately 13-acre site located at the northwestern section of Augustine tribal lands. The structure for the proposed Augustine Casino would accommodate up to 700 slot machines and 10 table games.	EA	07/08/2002
1999042052	Leona Quarry Project Oakland, City of Oakland--Alameda Construction of 564 residential units on the site of an existing rock quarry. Eighteen single family lots are proposed fronting Campus Drive; the remaining 545 units would be located with access off of Edwards Avenue on two development pads (approximately 45 acres). A 6,000 square foot community center and 10,000 square feet of commercial retail are proposed at the base of the site, adjacent to Edwards. The project also includes full reclamation of the site including slope restoration and re-vegetation.	EIR	07/24/2002
1999052046	City of Gilroy Revised General Plan Gilroy, City of Gilroy--Santa Clara The General Plan helps guide the City's long-term development. It establishes the overall policy framework for development decision making and defines the desired location, character, and quality of future development, as well as the process by which development should proceed.	EIR	07/24/2002
2002011069	Rialto High School Sports Stadium Rialto Unified School District San Bernardino--San Bernardino Construction of a high school sports stadium at Rialto High School, 595 S. Eucalyptus Avenue in San Bernardino. The project involves installation of home and visitor bleachers, press box and elevator, ticket booth, restrooms and concession building, paving, fencing, and lighting for night games. Full stadium capacity is 4,500 with 3,000 home seats and 1,500 visitor seats.	EIR	07/24/2002

2000112005	De Anza College Facilities Master Plan Foothill-De Anza Community College District Cupertino--Santa Clara The proposed Facilities Master Plan involves the expansion and renovation of campus facilities and modifications to campus access and circulation. The proposed projects would involve construction of new facilities (approximately 149,400 gross square feet) renovation of most existing facilities, probable revisions to existing campus entries, probable new campus entries/exits, construction of a parking deck, expansion of parking lots, probable realignment of the campus loop road, demolition of the Faculty House, and renovation of the campus landscaping (including upgrades to the irrigation system). All of the proposed facilities would be developed within the existing campus boundaries. The development proposed under the Facilities Master Plan is intended to meet the needs of the College for an anticipated enrollment of 30,850 (inclusive of on-site, distance learning, and off-campus growth) total students by the year 2010.	FIN	
1995121055	Belmont Learning Complex Los Angeles Unified School District Development of a senior high school campus serving 3,550 to 5,150 students, and community and retail facilities. Construction is approximately 60% complete, but was suspended in 1999. The primary focus of the Supplement to the EIR will be to evaluate construction and operation of gas control and monitoring system.	NOP	07/09/2002
2002061047	Legacy Specific Plan (File No. PSP02-001) Ontario, City of Ontario--San Bernardino The Specific Plan is proposed to establish the standards and guidelines for development of the 185 acres. The Specific Plan envisions the potential development of 600 single-family residential units, 300 cluster/townhome/single-family attached residential units, one 10-acre neighborhood park, one 10-acre elementary school, and two 2-acre mini-parks. The second component of the project involves the subdivision of 74 acres into smaller parcels. The area to be subdivided is located on the northeast corner of Bellegrave and Cleveland Avenues. The preliminary plans for the tentative tract map indicate roughly 250 lots for single-family residences, a two-acre mini-park park, and approximately 9 acres being reserved for the elementary. The subdivision is divided into five neighborhoods with average lots sizes of 6,300 square feet and 7,000 square feet in area.	NOP	07/09/2002
2002061051	City of Brea Comprehensive General Plan Update Brea, City of Brea--Orange The proposed project is the adoption and implementation of the City of Brea General Plan.	NOP	07/09/2002
2002061057	Orcutt Plaza Shopping Center Santa Barbara County Santa Barbara--Santa Barbara Development of the Orcutt Plaza Shopping Center on approximately 22 acres located between Highway 101, Santa Maria Way, and College Drive in Orcutt CA. The land is presently zoned general commercial. The project proposes approximately 206,000 sf of floor area and 887 parking spaces.	NOP	07/09/2002

2002062028	Eastridge Mall Renovation Project (File No. H02-012) San Jose, City of San Jose--Santa Clara The proposed project is a Site Development Permit to allow redevelopment of Eastridge mall, located on an approximate 76-acre site, of which a 54.55 acre portion is where construction is proposed to occur. The mall currently includes a JC Penney, Macy's, Sears, ice rink, and several non-mall structures. The proposed project would include the demolition of 306,768 square feet of the mall, including a vacant department store building, mall shops and an ice rink. These structures would be replaced by a movie theater complex, and approximately seven new non-mall shops and/or restaurants. The total square footage of these additions will equal the area to be demolished; therefore there will be no net increase in total mall area on the site. In addition, the new portions of the mall structure will not be greater in height than the existing structure. The proposed project also includes new landscaping in the southern portion of the project site.	NOP	07/09/2002

	for the above described activities to occur. The existing parking lot will not be modified or expanded. The exterior lighting of the building will not be modified or expanded. The exterior lighting of the building will not be modified or expanded and currently consists of low level security lighting, signage lighting, and illumination of the surface parking lot and associated pedestrian areas. The project will serve the needs of the District and the community it serves. The purpose of the Project is to provide centralized administration facilities for the District in a cost effective manner. Typically the project will only be utilized during the day, but occasional evening activities are possible.		
2002061053	Chino Creek Park Inland Empire Utilities Agency Chino--San Bernardino The Chino Creek Park project consists of a 28-acre site to be constructed as a recreation/practice fields and demonstration ecology which will include approximately 1500 feet of natural drainage path enhanced to create approximately 2 acre of Riparian Habitat, demonstration gardens for natural vegetation and recycled water use, and energy efficiency demonstrations.	Neg	07/09/2002
2002062026	USS-POSCO Industries, Soil Remediation and Expansion of the Unit One Landfill (Corrective Action Management Unit) Toxic Substances Control, Department of Pittsburg--Contra Costa Soils impacted with metals (arsenic, lead), polychlorinated biphenyls (PCBs), and/or oil and grease above industrial cleanup levels determined through use of a site specific risk assessment for industrial property use, will be excavated from ten areas around the USS-POSCO facility. Those soils which are non-RCRA, do not contain PCBs, and which been demonstrated not to have the potential to impact groundwater will be added to an already existing landfill which contains non-RCRA California hazardous wastes. The existing landfill, referred to as the Unit One landfill, covers eight acres and rises to a height of approximately 39.5 feet above sea level. Addition of soils will raise the elevation of the landfill to 48 feet above sea level and increase the footprint to 10 acres. Approximately 94,200 cubic yards of additional soils would be added to the 130,800 cubic yards already in place at the Unit One landfill. The Unit One Landfill would then become a Corrective Action Management Unit (CAMU) as defined in Title 22 of the California Code of Regulations. Once expanded the landfill would be referred to as the Unit One CAMU. The Unit One CAMU will be closed once the soils are in place, will have a geosynthetic cap to prevent intrusion of rainwater and will be inspected at least once a month for erosion and other possible incursions. The landfill does not have a liner. As system of groundwater monitoring wells will be sampled on a regular basis to ensure that groundwater monitoring is not being impacted by the landfill. A post-closure permit is required for this landfill to ensure continued groundwater monitoring and cover maintenance. The post-closure permit will be valid for ten years at which time renewal is required. Those soils containing PCBs, testing positive for RCRA criteria, and/or which not been shown to be protective of groundwater will be disposed of at an appropriate off-site facility. The volume of soil estimated for off-site disposal is 1,441 cubic yards.	Neg	07/24/2002

2002064004	Integrated Pest Management Plan (IPMP) U.S. Army -- The U.S. Army Reserve Command (USARC) proposes to manage pests on USARC installations and facilities using an approach that emphasizes the goal of reducing the use of pesticides by 50% to achieve effective pest control with minimal environmental contamination. Each Installation Pest Management Plan (IPMP) will develop the policies and procedures that will become part of the USARC ecosystem approach to managing its lands. Adhering to the IPMP will provide effective, economical, and environmentally acceptable pest control while maintaining compliance with pertinent laws and regulations. The goals of the pest management plan are to (1) promote the health, safety, and welfare of unit personnel through an effective pest management program, (2) promote installation protection, and (3) ensure a professionally trained pest management workforce while supporting the mission of the USARC to provide combat-ready units for the national defense. 1999082041	General Plan Master EIR Update Modesto, City of Modesto--Stanislaus The NOP for the Master EIR update was originally circulated on August 13, 1999. Since that time, development of the traffic model for the MEIR has resulted in the need for additional amendments to the general plan that were not stated in the original NOP. The City now proposes to consider the following additional amendments to its General Plan under the Master EIR update: 1) changes to employment figures for certain Comprehensive Planning Districts (CPDs) based on proposed traffic model factors, and 2) amendments to the Salida Comprehensive Planning District to be consistent with the Salida Community Plan update, as contained in the Stanislaus County General Plan. The present NOP augments the 1999 NOP to include the proposed General Plan Amendments. Otherwise, there has been no substantive change to the scope of the project addressed in the 1999 NOP.	NOP	07/12/2002
2002061066	Schoepe Tentative Map San Diego County Department of Planning and Land Use --San Diego The project proposes a major subdivision of 263 acres into 47 residential lots and one open space lot. The proposal includes a Major Use Permit that has been filed concurrently for a Planned Residential Development (PRD), which would cluster forty-four of the residential lots on two acre minimum lots in order to maximize the overall open space of the project. In addition, two large agricultural estates will be left in agricultural use. A total of 91.08 acres, or 34.6 percent of the project area is proposed for the natural open space lot. The project will utilize private roads and require public water and sewer service.	NOP	07/12/2002
2002061069	Water Supply Project Monterey Peninsula Water Management District Carmel, Monterey, Sand City, Seaside, Pacific Grove, ...--Monterey MPWMD is proposing a water supply project that will provide legal compliance for reliably supplying water to meet existing levels of water production of 15,285 acre feet annually as a short-term goal and augment the community water supply as a long-term goal. A major component of the project is an aquifer storage and recovery system. The MPWMD will also consider water supply options including desalination and construction of a dam on the Carmel River. The new boiler would have dual fuel burner capabilities, natural gas and Amber 365 backup fuel. Asbestos abatement work related to steam boiler replacement will be conducted. New underground steam piping would be installed in both the eastside and westside loop system with tie-ins to buildings at existing locations, with the exception of the Auditorium. At the rear of the Auditorium, new piping would be mounted on the exterior of the building with entrance to the building through an existing louver. Trenching to depths of five-feet on average would be required for pipeline installation. The new steam pipeline distribution system would contain improved thermal insulation and energy conservation properties. The routing for the pipeline system is being designed to avoid tree loss and detrimental impacts to mature trees at the facility. Existing underground steam lines are to be abandoned in place and would not be removed. The project also involves replacement of steam traps.	NOE

2002061073	EA SD 6-01; Conditional Use Permit No. 11, Map No. 147 Kern County Planning Department --Kern A Conditional Use Permit (CUP) to allow a surface mining operation and development of a reclamation plan in accordance with the Surface Mining and Reclamation Act (SMARA) of 1975. Request is to mine limestone and develop a comprehensive reclamation plan for project site disturbance associated with mining activities. The project site encompasses 280 acres on two parcels, totaling 1258 acres, both of which are subject to a Williamson Act Land Use Contract. As proposed, mining would disturb a total of approximately 125 acres, of which no more than 58 acres would ever be disturbed due to concurrent reclamation. The applicant estimates that between 250,000 and 1,000,000 tons of material would be removed per year. Total anticipated production of limestone and overburden/waste rock is estimated at 4.9 million tons and 1.3 million cubic yards, respectively. Maximum depth of excavation would be 195 feet. Crushing and stockpiling of mined material would occur on site; however all materials processed	Neg	07/15/2002
